Reurlet 9/12/68.

The Bureau notes that investigation in this case was initiated in April, 1968, based on data that subject accepted an invitation from the Academy of Sciences of the USSR to attend an International Conference on Physics of Semi-Conductors. At that time, he was a visiting professor at the University of California on sabbatical leave from the University of Pennsylvania.

Subsequent background investigation of subject has failed to determine whether or not subject has actually traveled to the Soviet Union although inquiry at the University of California has confirmed his acceptance of an invitation to attend the above-mentioned conference. Therefore, prior to considering your request for interview of subject, it is desired that additional investigative steps be taken to determine whether subject, in fact, traveled to the Soviet Union.
